

Connecting Travel, Hospitality, and Payments with Seamless Solutions

We believe automation and process enhancement are the future of the travel and hospitality industry. By delivering innovative technology, we connect stakeholders, streamline booking processes, and expand distribution, all while driving economic and commercial growth. Our solutions simplify operations and create lasting value for our partners.

About Bakuun

Founded in 2020, Bakuun is revolutionizing the travel and hospitality industry with cutting-edge technology solutions. Our platform streamlines bookings, automates payments, and optimizes customer onboarding, making your operations faster, smarter, and more profitable.

Streamline hotel bookings and partner collaborations with our platform, enabling seamless multi-booking transactions in a single process to simplify travel coordination.

Simplify hotel distribution. RateDock connects Channel Managers to distribution partners via a single API, offering efficient access to a wide network with minimal integration.

Optimize financial operations in the B2B travel market. PayDock automates payments and invoicing, delivering faster, more cost-effective solutions compared to virtual credit cards and bank transfers.

Stay competitive with real-time access to hotel rates and availability through ChannelsGate, ensuring you're always positioned to secure the best options for your clients.

Unlock the Future of Travel & Hospitality with Bakuun

Experience seamless automation and efficiency like never before. Simplify your bookings, streamline payments, and access exclusive rates—all through our solutions.
