

Fact Sheet

We believe that automation and improvement of the processes are the future in the travel and hospitality market, connecting different stakeholders by delivering new technology that simplifies the booking process and enlarges the distribution while creating economic and commercial benefits.

Company Preview

Founded in 2018, Bakuun Holdings is all about making your business easier and more efficient. With our advanced technology solutions for bookings, payments, and customer onboarding, we ensure that managing your travel and hospitality services is smoother and more profitable. Whether you're looking to save time, reduce costs, or attract new customers, we've got you covered.

Our Products

Bakuun

Revolutionizing interactions between airlines and hotels, our platform allows for multiple bookings in a single transaction with dynamic hourly rates based on passengers' layover times.

HotelsMapping

Provides effortless access to extensive hotel content, eliminating the need for direct sourcing.

RateDock

Offers seamless connectivity to a broad network of partners through a single API.

PayDocker

Automates and economizes financial transactions, making payments and invoicing simpler and more cost-effective.

Gives you access to exclusive hotel rates and availability, ensuring you always have the competitive edge.

Equips you with the necessary tools to quickly launch and efficiently manage your online travel agency.

Leadership

With combined technical expertise, skills and experience, get to know our leaders who are always working on improving our products and furthering innovation to benefit our stakeholders.
